

PAINTING AND REFINISHING

Pierce County Careers Connection Dual Credit Articulation Agreement

Upon completion of high school courses equivalent to the following competencies:

- Apply Polyurethane Paint
Given a vehicle and vehicle panels that require painting, polyurethane paint and polyurethane system:
 - Make any necessary repairs.
 - Paint the vehicle or panels using a polyurethane system.
 - Paint in a well ventilated area, using one of the following:
 - ~ Spray room
 - ~ Prep deck
 - ~ Spray booth using a HVLP spray gun wearing personal safety equipment (eye protection, proper respirator, paint suit, and gloves)
 - Prepare vehicle for delivery.

System must be used with 100% accuracy, and the finished product must be color and gloss matched with no orange peel, runs, or sand scratches.
- Apply Urethane Colorcoat/Clearcoat
Given a vehicle or panels that require basecoat/clearcoat system:
 - Apply material in a well ventilated area, using one of the following:
 - ~ Spray room
 - ~ Prep deck
 - ~ Spray booth using a HVLP spray gun wearing personal safety equipment (eye protection, proper respirator, paint suit, and gloves)

System must be used with 100% accuracy, and the finished product must be gloss matched with no orange peel or runs.
- Apply Flexible Finish Paint.
Given panels/sections that require finishing, a flexible finish system and paint:
 - Apply flexible finish paint to the panels/sections using a flexible finish system in a well ventilated area
 - ~ Spray room
 - ~ Prep deck
 - ~ Spray booth using a HVLP spray gun wearing personal safety equipment (eye protection, proper respirator, paint suit, and gloves)

System must be used with 100% accuracy, and the finished products must be gloss matched with no orange peel or runs.
- Heat Dry Painted Surface.
Given a painted panel requiring heat drying:
 - Heat dry the panel in a heat booth or using heat lamps.

Finished work must have a glossy appearance.
- Buff Freshly Painted Surfaces.
Given a vehicle panel refinished with basecoat/clearcoat:
 - Clean the panel to match gloss or adjacent panels
 - Color the panel to match gloss or adjacent panels
 - Sand the panel to match gloss or adjacent panels
 - Compound the panel to match gloss or adjacent panels

Demonstrate appropriate use of the following:
 - Buffer (electric or air) wearing personal safety equipment (eye protection, and respirator.)
- Prepare Newly Painted Vehicle for Delivery.
Given a refinished vehicle, the student must using detailing materials, vacuum cleaner or shop vac so that it is ready for delivery to the customer.
 - Properly detail the vehicle, using one of the following:
 - ~ Detailing materials
 - ~ Vacuum cleaner
 - ~ Shop vac

Vehicle will be clean, with no evidence of shop residuals; appearing "showroom fresh" and ready for delivery to the customer.

A student earning a "B" grade or better may earn college credit at the following college:

<u>College</u>	<u>Course</u>	<u>Credits</u>
Bates Technical College	AUTOB 201	5
	AUTOB 202	5
