

SAFETY & OPERATING CERTIFICATE ARTICULATION

Pierce County Careers Connection
Dual Credit Articulation Agreement

Upon completion of a full year of high school or equivalent to the following competencies:

☐	BASIC FORKLIFT
	<ul style="list-style-type: none"> Explain basic safety principles of lift operation.
	<ul style="list-style-type: none"> Demonstrate safe operation of a basic lift, including backing and turning.
	<ul style="list-style-type: none"> Demonstrate industry accepted hand signals for directing lift operations.
	<ul style="list-style-type: none"> Demonstrate the ability to determine load capacities of a lift and proper pallet load distribution.
	<ul style="list-style-type: none"> Demonstrate moving pallet loads correctly from point to point.
	FIRST AID/CPR/AED
	<ul style="list-style-type: none"> Administer basic emergency first aid for various types of injury.
	<ul style="list-style-type: none"> Administer adult CPR and direct others to assist until professional aid arrives.
	<ul style="list-style-type: none"> Ascertain when use of a defibrillator is warranted.
	<ul style="list-style-type: none"> Demonstrate safe operation of a defibrillator.
	<ul style="list-style-type: none"> Explain precautions needed to prevent transfer of BBP.
	<ul style="list-style-type: none"> Explain how to safely move an injured person if necessary using materials at hand.
	<ul style="list-style-type: none"> Identify symptoms of heart attack, stroke, heat stroke and hypothermia and apply appropriate remedies until professional aid arrives.
	LEAD RRP
	<ul style="list-style-type: none"> Explain and demonstrate proper application of personal protective equipment (PPE) for lead assessment and remediation.
	<ul style="list-style-type: none"> Understand and explain hazards of lead exposure, especially for children.

	<ul style="list-style-type: none"> Identify potential trouble spots containing lead contaminants both indoors and outdoors.
	<ul style="list-style-type: none"> Correctly use testing tools and materials to determine if lead contamination is present.
	<ul style="list-style-type: none"> Explain and demonstrate corrective steps to be taken to remediate contaminated sites.
	<ul style="list-style-type: none"> Properly seal off areas to be cleaned up in order to prevent the spread of contaminants.
	<ul style="list-style-type: none"> Employ generally accepted remediation techniques.
	<ul style="list-style-type: none"> Remove all contaminated materials, including PPE, and properly dispose of it as hazardous waste.
	OSHA 10 CONSTRUCTION SAFETY
	<ul style="list-style-type: none"> Explain the most common potential hazards on construction sites.
	<ul style="list-style-type: none"> Identify and demonstrate the proper use of appropriate PPE for construction work.
	<ul style="list-style-type: none"> Explain and employ proper protection equipment related to use of ladders, scaffolds, beam walking and trenches.
	<ul style="list-style-type: none"> Explain and demonstrate lock out/tag out procedures and identify when LO/TO needs to be used.
	<ul style="list-style-type: none"> Demonstrate proper technique for loading/moving wheelbarrows and loading/moving pallets using a pallet jack.
	<ul style="list-style-type: none"> Employ correct ergonomic strategies for lifting and moving heavy materials.
	<ul style="list-style-type: none"> Recognize, read and comprehend Material Science Data Sheets (Now Material Data Sheets, or MSDS/MDS) and apply appropriate safety measures as specified.

A student earning a “B” grade or better may earn college credit at the following college:
